

## Special Issue

# A Themed Issue in Honor of Professor Robin D. Rogers - "A Scientific Journey within Green Chemistry"

### Message from the Guest Editors

During the 1990s, awareness regarding the environmental impacts of traditional chemistry changed the way we see it and apply it. Since then, a "greener wave" has grown in the Scientific Community, fully transforming this discipline, with the protection of the environment and people, appearing as critical challenges. Among world-renowned researchers, Prof. Dr. Robin D. Rogers is one of the pioneers in "greening" chemistry. During his outstanding scientific career, he has brought sustainability into diverse chemistry-related applications. He is an inspiration for younger researchers, always supporting and challenging them to go deeper and contribute toward sustainable development in benefit of society. We believe that this is the right moment to honor his remarkable "Scientific Journey within Green Chemistry". Therefore, it is our great pleasure to invite you to submit your research or review manuscript to this Special Issue. This Special Issue aims to cover research in all fields that Prof. Dr. Robin D. Rogers has been working in, especially "green chemistry".

---

### Guest Editors

Prof. Dr. Mara G. Freire

Dr. Paula Berton

Dr. Jorge F. B. Pereira

Dr. Hui Wang

Dr. Xingmei Lu

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
