

# Special Issue

## Advances in Fluoropolymers

### Message from the Guest Editors

Fluoropolymers are enabling materials that find applications in critical technologies from energy conversion to microelectronics and photonics, extreme environment applications, and biomaterials. Traditional fluoropolymer technology is nearly 70 years old, and it still maintains a growth rate above the US GNP. In addition to perfluoropolymers, partially fluorinated polymers will continue to impact a wide range of technologies as better control of their unique optical, electronic, processing, extreme environment stability, and surface properties is achieved. This Special Issue on “Advances in Fluoropolymers” will include invited contributions to the biennial Fluoropolymer 2023.

### Guest Editors

Prof. Dr. Scott T. Iacono

Department of Chemistry & Chemistry Research Center, United States Air Force Academy, Colorado Springs, CO, USA

Dr. Abby R. Jennings

Department of Chemistry & Chemistry Research Center, United States Air Force Academy, Colorado Springs, CO, USA

### Deadline for manuscript submissions

closed (1 September 2023)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
