

Special Issue

30th Anniversary of *Molecules*—Recent Advances in Electrochemistry

Message from the Guest Editor

The year 2026 will mark the 30th anniversary of *Molecules*, and to celebrate this exciting milestone, we have set up a Special Issue, “30th Anniversary of *Molecules*—Recent Advances in Electrochemistry”, to publish cutting-edge research in our Section.

This Special Issue will consist of comprehensive reviews and original research articles featuring important and recent developments or advancements in all areas of electrochemistry. Research areas include (but are not limited to): organic electrochemistry, electrocatalysis, electrochemical sensing and detection (including electrochemical/SSD integration), battery, corrosion, solar cells, electrode material, fuel cells, energy conversion and storage, spin-dependent electrochemistry, and double-layer capacitors.

We warmly invite and encourage all research groups working across the diverse fields of electrochemistry to contribute to this important and celebratory Special Issue.

Guest Editor

Dr. Claudio Fontanesi

Department of Engineering “Enzo Ferrari” (DIEF), University of Modena and Reggio Emilia, Via Vivarelli 10, 41125 Modena, Italy

Deadline for manuscript submissions

31 December 2026

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
