Medicinal Chemistry in Europe IV

Message from the Guest Editor

This Special Issue, “Medicinal Chemistry in Europe IV”, of the journal *Molecules* deals with the structure–activity relationship of all of the natural molecules of interest in a wide range of areas (microbiology, neurobiology, pharmacology, immunology, cancerology, toxicology, etc.), from basic research to more applied clinical developments. Studies on molecules of a varied nature (i.e., peptides/proteins and organic compounds), size, and function—as well as molecular complexes—will be considered for publication in the Special Issue. Scientists working on the various fields of medicinal chemistry from all over Europe are cordially invited to submit to this Special Issue.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
