## Feature Papers in Applied Chemistry 2.0

### Message from the Guest Editors

It is our pleasure to announce a Special Issue entitled "Feature Papers in Applied Chemistry 2.0". This is a collection of important high-quality papers (original research articles or comprehensive review papers) published in an open access format by Editorial Board Members or prominent scholars invited by the Editorial Office and the . This Special Issue aims to discuss new knowledge or new cutting-edge developments in the applied chemistry research field through selected works, in the hopes of making a great contribution to the community. We aim for this issue to be the best forum for disseminating research findings as well as sharing innovative ideas in the field.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
