

Special Issue

Food Chemistry in Europe, 2nd Edition

Message from the Guest Editors

Following the success of the Special Issue “Food Chemistry in Europe” in *Molecules*, we are pleased to launch the second edition of this Special Issue. It aims to collect papers on food chemistry from European scholars. In Europe, many research groups are working on this topic. For example, there is research on carbohydrates, lipids, protein, vitamins, enzymes, food additives, flavors, and colors. This topic also encompasses how products change under certain food-processing techniques and ways to either enhance these changes or prevent them from taking place. In addition, authors are encouraged to publish original research and review articles related to the application of data analytics in food chemistry, in order to extract relevant chemical information and to correlate quality parameters or physical properties. Scientists from Europe are invited to contribute original research papers or reviews to this Special Issue, which discusses new knowledge or new cutting-edge developments in the food-chemistry research field.

Guest Editors

Prof. Dr. Đurdica Ačkar

Dr. Raffaella Boggia

Dr. Patricia Regal

Dr. Olga Papadopoulou

Deadline for manuscript submissions

30 September 2026

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
