Exclusive Feature Papers in Physical Chemistry, 3rd Edition

Message from the Guest Editor

We are pleased to announce a new Special Issue entitled "Exclusive Feature Papers in Physical Chemistry, 3rd Edition". This Special Issue will provide a collection of high-quality papers (original research articles or comprehensive reviews) published in open access format by Editorial Board Members or prominent scholars invited by the Editorial Office and the . We aim to gather articles that present innovations related to the field of physical chemistry in order to contribute to the scientific community, and also aim to provide a platform for the dissemination of important research findings and ideas in the field.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
