

## Special Issue

# Materials Chemistry in China— Second Edition

### Message from the Guest Editors

Novel materials have formed the intriguing basis for various areas to have great impact on our society, ranging from electronic, to bio-related, to healthcare applications. These materials are not only supportive for innovation in fundamental research but also, more importantly, for creating new generation of electronic devices or actuators, for biomedical supports and drug supports, and used as intelligent materials. Studies on the relationship between molecular structures and material properties are welcome for submission. New concepts for materials chemistry are also highly welcome.

This Special Issue continuously focuses on the new frontiers of materials chemistry in China. It is devoted to reporting on either theoretical or experimental studies on synthesis, properties, characterization, and applications of various materials. We invite researchers to contribute original articles and reviews.

### Guest Editors

Prof. Dr. Afang Zhang

International Joint Laboratory of Biomimetic and Smart Polymers,  
School of Materials Science and Engineering, Shanghai University,  
Shanghai 200444, China

Prof. Dr. Bangjing Li

Key Laboratory of Mountain Ecological Restoration and Bioresource  
Utilization, Chengdu Institute of Biology, Chinese Academy of Sciences,  
Chengdu 610041, China

---

### Deadline for manuscript submissions

closed (31 December 2024)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
