

## Special Issue

# Functional Fibers and Textiles for Health Regulation and Protection

### Message from the Guest Editor

Throughout human history, fibers and textiles have played significant roles in the development and daily activities of society. Despite this, textile research on advanced applications received little attention for a long time. In recent years, we have witnessed innovations related to functional and smart fibers/textiles with sensing, thermal regulation, and protecting capabilities, which have drawn increasing interest from both academic and industrial communities. Hence, more research attention should be devoted to the material design and fundamental principles of functional fibers and textiles; their applications in human health management, thermal and electromagnetic protection, passive cooling, energy storage/conversion, etc. need to be broadened.

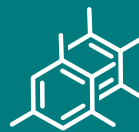

### Guest Editor

Dr. Yunpeng Huang

School of Chemical and Material Engineering, Jiangnan University, Wuxi 214122, China

### Deadline for manuscript submissions

closed (30 June 2024)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
