

Special Issue

Biocatalytic Platforms Towards Synthesis and Degradation Processes

Message from the Guest Editors

This Special Issue is devoted to the fields of biotechnology, which include the borderline between chemistry and biology in the area of bioconversions and biodegradations. In the frame of this Special Issue, we are open to the application of innovative or common approaches to bioconversions according to the green chemistry rules. This Special Issue is meant to be a coherent study on biological platforms, considered as tools for further employment in other areas, emphasizing the current advances and possible development. We look forward to receiving your valuable contributions that will enhance our knowledge about the meaning of various biological systems in science and industry.

Guest Editors

Prof. Dr. Ewa Zymańczyk-Duda
Dr. Małgorzata Brzezińska-Rodak
Dr. Magdalena Klimek-Ochab

Deadline for manuscript submissions

30 September 2026

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
