

## Special Issue

# Preparation and Applications of Biological Active Agents

### Message from the Guest Editor

Dear Colleagues: This Special Issue intends to highlight the most recent advances in the field of developing and using biological active agents in treating different diseases including cancer, severe infections (with viral or bacterial etiology), etc. Along with the design and development of biological active agents and the extraction from natural sources, a special attention will be paid to different administration pathways as well as to the prevention of the spreading of infections and cancer. Manuscripts related to smart and targeted delivery are especially welcome. The use of computational chemistry in identifying potential biological active agents is especially welcome, as are manuscripts which exploit this field.

### Guest Editor

Prof. Dr. Anton Ficai

1. Department of Science and Engineering of Oxide Materials and Nanomaterials, Faculty of Applied Chemistry and Materials Science, University Politehnica of Bucharest, 1-7 Gh. Polizu St., 011061 Bucharest, Romania

2. Academy of Romanian Scientists, 54 Splaiul Independenței St., Bucharest, Romania

### Deadline for manuscript submissions

closed (1 June 2021)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
