

Special Issue

Recent Advances in Nitrogen-Containing Aromatic Heterocycles

Message from the Guest Editor

This Special Issue is dedicated to aromatic organic compounds containing one or more nitrogen atoms. These are five or six-membered rings, fused or not fused onto other rings, and containing nitrogen only or in combination with oxygen or sulfur. A surfeit of such compounds occurs in the chemical literature, including many natural substances and bioactive synthetic compounds. I am therefore looking forward to receiving timeless research articles, communications and reviews detailing the latest advances in synthetic methods, target oriented synthesis, applications, and biological evaluation of such small molecule heterocycles.

Guest Editor

Prof. Dr. Fawaz Aldabbagh

Department of Pharmacy, School of Life Sciences, Pharmacy & Chemistry, Kingston University, Penrhyn Road, Kingston upon Thames KT1 2EE, UK

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
