

Special Issue

Bioconjugations

Message from the Guest Editor

This special issue of *Molecules* is dedicated to Bioconjugations. Contributions that describe methods for performing selective bioconjugations, materials used for bioconjugations, and methods for characterizing bioconjugates are welcome. This field continues to grow as the variety of biomolecules used for bioconjugation increases. Furthermore, as new materials are explored as biological probes and modifiers, novel methods are needed to link these materials to biomolecules and to characterize the resulting conjugates. I encourage authors to submit research papers and comprehensive reviews for this Special Issue. I hope that the topics covered will reflect the intrinsically interdisciplinary nature of this field. Dr. Scott Reed

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
