

Special Issue

Biomolecules from Essential Oil Bearing Plants: Biological and Industrial Applications

Message from the Guest Editors

This Special Issue focuses on extraction, isolation, chemical analysis, identification of essential oils and biomolecules utilizing advanced chromatographic techniques (GC-MS, LC-MS, MS/MS, QTOF), biological activities (in vivo, vitro, and silico) of extracts and compounds from essential oil bearing plants as well as assessment of their safety and quality parameters for a wider range of industrial application. Biotechnological approaches for the enhancement of essential oil production and quality are also encouraged. I cordially invite authors to submit their original articles as well as reviews to the Special Issue to reveal the importance of naturally occurring products from essential oil bearing plants in order to open up new opportunities in pharmaceuticals, fuels, cosmetics, and food industries for future demands.

Guest Editors

Prof. Dr. Marcello Iriti

Department of Biomedical, Surgical and Dental Sciences, Università degli Studi di Milano, 20133 Milan, Italy

Dr. Moshfekus Saleh-E-In

Division of Forest Resources, College of Forest and Environmental Sciences, Kangwon National University, Chuncheon 200-701, Republic of Korea

Deadline for manuscript submissions

closed (31 December 2021)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
