

# Special Issue

## Chemistry of Indoles

### Message from the Guest Editor

We would like to cordially invite you to contribute an original research paper or a review article to a Special Issue of *Molecules*. The topic is broadly defined as “The Chemistry of Indoles”. Indole derivatives are arguably the most extensively exploited heterocyclic compounds in medicinal and pharmaceutical research. Their rich chemistry continues to surprise and fascinate scientists around the world. We envision the main purpose of this Special Issue in highlighting a multifaceted modern indole chemistry, including novel synthetic methodologies allowing for efficient assembly of indole-based heterocycles, unusual reactivity patterns, and other noteworthy applications. We especially welcome contributions on the preparation of natural and biologically active indole derivatives.

### Guest Editor

Prof. Dr. Alexander Viktorovich Aksenov

Faculty of Chemistry and Pharmacy, North Caucasus Federal University,  
355017 Stavropol, Russia

### Deadline for manuscript submissions

closed (31 October 2023)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
