

## Special Issue

# Computational Design and Modelling of Organic Materials for Energy Applications

### Message from the Guest Editor

Thanks to their versatility, organic semiconductors play a central role in the search for solutions to some of the most fascinating problems in energy research. The quest for efficient and stable singlet fission materials or photocatalysts, the rationalization of the impact of three-dimensional order and disorder on charge mobility, and the elucidation of general design principles for emissive (TADF, AIE) candidates are only some of the challenges that our community is facing. The objective of this Special Issue is to gather contributions that advance the design of organic materials or shed light on theoretical aspects of the physical processes involved, from a computational perspective. We welcome communications, full papers, and reviews on the aforementioned topics.

### Guest Editor

Dr. Daniele Padula

Department of Biotechnology, Chemistry and Pharmacy, University of Siena, 53100 Siena, Italy

### Deadline for manuscript submissions

closed (15 May 2021)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
