

## Special Issue

# Coordination Chemistry in Cancer Therapy

### Message from the Guest Editors

This Special Issue devoted to the study of metal complexes in cancer therapy will collect communications, research articles, and high-quality review papers in research fields relating to chemical biology. I kindly encourage all research groups working in this field to contribute to this Special Issue involving, but not restricted to: metal-based drug design, synthesis and test; target identification of metal-based anticancer drug; and the study of mechanism of action of the most promising metal complexes as anticancer agents. Theoretical studies are also welcome.

- metal-based anticancer drug
- coordination chemistry
- anticancer drug design
- action mechanism
- cancer therapy
- combination therapy
- QSAR
- molecular docking

We kindly invite you to contribute an excellent paper to the SI. You are welcome to visit the [website](#) and submit your paper [here](#). If you have any questions, please feel free to contact Cecilia Li ([cecilia.li@mdpi.com](mailto:cecilia.li@mdpi.com)), the managing editor from Molecules editorial office.

### Guest Editors

Prof. Dr. Tiziana Pivetta

Dipartimento di Scienze Chimiche e Geologiche, Università degli Studi di Cagliari, Cagliari, Italy

Dr. Sarah Vascellari

Department of Biomedical Science, Università degli studi di Cagliari, Cagliari, Italy

### Deadline for manuscript submissions

closed (31 May 2024)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
