

Special Issue

Coordination Polymers: Synthesis, Structure, Luminescence and/or Magnetic Properties

Message from the Guest Editor

As the of a Special Issue of *Molecules* on "Coordination Polymers: Synthesis, Structure, Luminescence and/or Magnetic Properties", it is my pleasure to invite you to submit an article on this topic. This Issue is devoted to the design of new coordination polymers (including porous compounds), the study of metal- or ligand-centered luminescence and/or magnetic properties, as well as the influence of different substrates on their absorption. The article may be either a full paper or a communication based on your own research in this broad area of coordination chemistry, or may be a focused review article on some aspect of the subject. All submissions will be subject to peer review.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of
Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
