Dendrimers in Medicine: Theme Issue Honoring Professor Jean-Pierre Majoral on His 80th Birthday

Message from the Guest Editors

Professor Jean-Pierre Majoral has played a key role in the development of dendrimer field by providing a platform in designing a diverse range of nanomaterials. He has received numerous awards including *Award of the French Chemical Society*, *Coordination Chemistry Division*, *Prix Jecker Award* of the French Academy of Sciences; *Wittig Grignard Award* of the German Chemical Society; *von Humboldt Foundation Award*, etc. He has published more than 660 papers, and is also the co-founder of two companies Dendris, and Biodendrimer International. Professor Majoral will celebrate his 80th birthday in 2021, and *Molecules* is pleased to host a special issue entitled “*Dendrimers in Medicine: Theme Issue Honoring Professor Jean-Pierre Majoral on his 80th Birthday*” to congratulate him and celebrate his outstanding contributions to the area of dendrimers. We invite scientists to join us in celebrating Professor Jean-Pierre Majoral's exceptional achievements by contributing original research articles as well as reviews to this special issue.

Guest Editors

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
