

## Special Issue

# Exclusive Review Papers in Green Chemistry

### Message from the Guest Editors

This Special Issue aims to collect high-quality review papers in the research field of green chemistry, for which the Editorial Board members of the journal *Molecules*, Section “Green Chemistry”, and other researchers working in the field are invited to contribute. We are welcoming proposals for review articles in this dynamically developing discipline in fundamental and applied research even in academia and industry in all domains such as fine chemicals, pharma, cosmetic, nutraceutical, food ingredients, perfumery, materials, paint, etc.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
