

Special Issue

Frontiers in Metal Complexes

Message from the Guest Editor

In recent decades, metal complexes have become of great importance to modern human life. Without them, it is impossible to imagine the modern chemical, microelectronics, and pharmaceutical industries. It is clear that in the future the role of complex compounds will only increase, especially in key areas of development such as energy-saving technologies, medicine, green chemistry, and environmental protection. We are pleased to invite you to participate in a Special Issue titled "Frontiers in Metal Complexes". The main attention will be paid to complexes with an unusual molecular and crystal structure, which could lead to the emergence of promising chemical and physical properties for the preparation of new effective materials, catalysts, and drugs.

Guest Editor

Prof. Dr. Andrei V. Churakov

N.S. Kurnakov Institute of General and Inorganic Chemistry, Russian Academy of Sciences, Moscow, Russia

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
