Special Issue

Heavy Metals and Metalloids in Environmental, Food and Nutrients Samples

Message from the Guest Editors

Molecules will publish a series of articles for the Special Issue of the Analytical Chemistry section entitled "Heavy Metals and Metalloids in Environmental, Food and Nutrients Samples". We are looking for high-quality research papers dealing with a broad range of potentially toxic elements to humans and the environment. The aim of this Special Issue is focused on major Earth threats related to both development of analytical methods and determination this type of contaminants. Heavy metals, nanoparticles, rare earth elements in various concentrations can be essential, toxic, and economically important. We encourage you to publish your research manuscript or review article in our Special Issue.

Guest Editors

Dr. Tomasz Kowalkowski

Environmental Chemistry and Bioanalytics, Faculty of Chemistry, Nicolaus Copernicus University Gagarina 7, 87-100 Toruń, Poland

Prof. Dr. Marcin Frankowski

Faculty of Chemistry, Adam Mickiewicz University in Poznań, 61-712 Poznań, Poland

Deadline for manuscript submissions

closed (31 January 2024)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
