

Special Issue

Indole Derivatives: Synthesis and Application II

Message from the Guest Editors

Indoles continue to generate new chemistry as a result of their potential for reactivity and also for their central role in biological chemistry through the involvement of tryptophan. This Special Issue therefore seeks to cover a broad range of interests that include new reactivity patterns, new methods for indole transformations, the synthesis of indoles with additional fused rings, new synthetic routes to the indole framework, indole metal complexes, and aspects of medicinal chemistry incorporating indole systems. The aim of the Special Issue is to be inclusive and especially to document new and unusual features of indole chemistry.

Guest Editors

Prof. Dr. David StC Black

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
