

Special Issue

Ionic Liquids in Organic Chemistry

Message from the Guest Editor

The aim of this Special Issue is to collect a series of research articles, reviews, or short communications that allow one to emphasize the high interest of ionic liquids in organic chemistry. Besides their known and valuable use as solvents and/or catalysts in organic reactions and processes, the design, synthesis, and applications of new functionalized ionic liquids have got a great deal of attention in various aspects of chemical applications over the past decade. Some examples are their use for polymer degradation, as adjuvant components in drug delivery as solubility enhancers and emulsifiers, as components of drug formulations (API-ILs), as reagents for chiral recognition, as ligands in new catalysts, as lubricants, and as surfactants or as electrolytes.

Guest Editor

Dr. Emilia Tojo

Department of Organic Chemistry, Faculty of Chemistry, Universidade de Vigo, Vigo (Pontevedra), Spain

Deadline for manuscript submissions

closed (30 November 2020)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
