

Special Issue

Main Elements in Organic Synthesis: A Themed Issue in Honor of Professor Jozef Drabowicz

Message from the Guest Editors

When we accepted to edit a special issue dedicated to the career of prof Jozef Drabowicz, in the year of his 75th birthday, we decided to choose a topic broad enough to attract manuscripts that should be representative of his large and eclectic scientific interests and scientific contribution in the field of organic chemistry. Original research articles and review articles dealing with the elements of the main groups in organic synthesis, with particular emphasis on the chemistry of chalcogens, halogens and phosphorous will be welcome. A special invitation to contribute is directed, but not limited, to all the scientists, colleagues and friends that had the opportunity to be supervised, to collaborate or to be inspired by prof Drabowicz. Prof. Dr. Claudio Santi

Guest Editors

Prof. Dr. Claudio Santi

Group of Catalysis and Organic Green Chemistry, Department of Pharmaceutical Sciences, University of Perugia, 06123 Perugia, PG, Italy

Dr. Luca Sancineto

Department of Pharmaceutical Sciences, Group of Catalysis, Synthesis and Organic Green Chemistry, University of Perugia, Perugia, Italy

Deadline for manuscript submissions

closed (30 November 2023)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
