

## Special Issue

# Main Group Elements in Synthesis

### Message from the Guest Editor

Main group chemistry continues to flourish. Apart from the beauty of many main group compounds the range and application of main group systems includes, e.g., valuable reagents for organic transformations, new catalysts, potential hydrogen storage materials and new electronic materials. I am delighted to have been invited to Guest Edit a Special Issue on main group elements in synthesis. I do hope you will consider submitting an article to *Molecules* one of the premier open access journals. I welcome articles in the broadest sense both p-block and s-block chemistry

---

### Guest Editor

Prof. Dr. J. Derek Woollins

Department of Chemistry, University of St Andrews, St Andrews, Fife KY16 9ST, UK

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
