

Special Issue

Main Group Elements in Synthesis

Message from the Guest Editor

Main group chemistry continues to flourish. Apart from the beauty of many main group compounds the range and application of main group systems includes, e.g., valuable reagents for organic transformations, new catalysts, potential hydrogen storage materials and new electronic materials. I am delighted to have been invited to Guest Edit a Special Issue on main group elements in synthesis. I do hope you will consider submitting an article to *Molecules* one of the premier open access journals. I welcome articles in the broadest sense both p-block and s-block chemistry

Guest Editor

Prof. Dr. J. Derek Woollins

Department of Chemistry, University of St Andrews, St Andrews, Fife KY16 9ST, UK

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of
Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
