

Special Issue

Using Modern Bioanalytics and Chemometric Tools in Environmental and Diagnostic Applications

Message from the Guest Editors

Despite the growing consciousness of society, environmental contamination still seems to be underestimated by policy makers, entrepreneurs, and society itself. Scientists continue to learn how to better quantitatively and qualitatively determine the concentrations of the possible wide range of pollutants in different complex mixtures to ultimately assess the exposure of different organs/tissues/organisms to compounds belonging to different groups and to predict their impact on ecosystems and human beings. For this reason, we would like to invite you to contribute to this Special Issue of *Molecules* titled “Using Modern Bioanalytics and Chemometric Tools in Environmental and Diagnostic Applications” with your valuable unpublished research that can find a world-wide audience among readers of *Molecules*.

Guest Editors

Prof. Dr. Jacek Namieśnik

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
