

Special Issue

Frontiers in Coordination Polymers

Message from the Guest Editor

This Special Issue focuses on the new frontiers in the synthesis, structure, properties and applications of coordination polymers. Submissions may take the form of either a full paper or a communication based on your own research in the area of coordination chemistry, or may be a focused review article on some aspect of the subject. Potential topics include, but are not limited to, the following research areas:

- synthesis and characterization of coordination polymers;
- structural topologies of coordination polymers;
- magnetic properties;
- host-guest chemistry;
- ion exchange;
- fluorescence;
- catalysis;
- structure-property relationships of coordination polymers.

Guest Editor

Prof. Dr. Sergey V. Kolotilov

L. V. Pisarzhevskii Institute of Physical Chemistry of the National Academy of Sciences of Ukraine, Kiev, Ukraine

Deadline for manuscript submissions

closed (30 September 2021)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
