

Special Issue

Dedicated to the 55th Anniversary of G.B. Elyakov Pacific Institute of Bioorganic Chemistry of the Far Eastern Branch of the Russian Academy of Sciences

Message from the Guest Editor

Recently, the G.B. Elyakov Pacific Institute of Bioorganic Chemistry (PIBOC) celebrated its 55th anniversary. Over many years, we have been carrying out studies on the natural products of a both marine and terrestrial origin. In collaboration with many Russian and Foreign scientists, we have investigated diverse biomolecules, including steroids and terpenoids, quinoid compounds and alkaloids, polysaccharides and lipids, etc. Many living creatures such as higher plants, algae, marine invertebrates, etc. have been examined as sources of biologically active compounds, and numerous new species have been described, predominantly marine microorganisms. The conference was held in Vladivostok on 11–15 September 2019, with the participation of scientists from other Scientific Institutions and Universities of our country. We invite all participants of this conference, as well as all collaborators and friends of our institute take a part in preparing this Issue.

Guest Editor

Dr. Pavel S. Dmitrenok

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
