

Special Issue

Solution-Processed Inorganic Optronic and Electronic Materials

Message from the Guest Editors

The aim of this Special Issue is to provide a platform for the research community to report on the current status and the latest developments of solution-deposited inorganic optronic and electronic materials, devices, and systems. Research results in any field of science where this class of inorganic materials is utilized will be considered for publication. The scope of this issue includes but is not limited to material synthesis and characterization, device fabrication and assessment, device stability/reliability, device physics and modeling, material/device integration into multifunctional systems, future technologies (e.g., wearables), etc.

Guest Editors

Dr. Leszek Majewski

Department of Electrical and Electronic Engineering, The University of Manchester, Sackville Street Building, Manchester M13 9PL, UK

Prof. Dr. Rita Branquinho

1. Professor at the Department of Materials Science, Faculty of Science and Technology (FCT), NOVA University of Lisbon (UNL), 2829-516 Caparica, Portugal.
2. Researcher at CENIMAT/i3N and CEMOP/UNINOVA, 2829-516 Caparica, Portugal.

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
