

Special Issue

Phytochemicals from Fruit and Vegetable By-Products and Wastes and Their Re-use

Message from the Guest Editors

It is our pleasure to present this Special Issue of *Molecules*, entitled “Phytochemicals from Fruit and Vegetable Byproducts and Wastes and Their Re-use”. The aim of this Special Issue is to collect original research articles and reviews on this topic, ranging from method development and optimization to the investigation and exploitation of functional properties of those bioactive compounds extracted from fruit and vegetable industry byproducts and wastes. You are welcome to visit the [website](#), submit the [abstract](#) and [full paper](#). If you have any questions, please feel free to contact the managing editor Larry Li (larry.li@mdpi.com). We look forward to receiving your contribution!

Guest Editors

Prof. Dr. Marchetti Nicola

Food Chemistry Lab, Department of Chemistry and Pharmaceutical Sciences, University of Ferrara, Ferrara, Italy

Dr. Giuseppina Paola Parpinello

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
