

Special Issue

Plant Extracts: Biological and Pharmacological Activity—the Second Edition

Message from the Guest Editors

Due to the success of the first edition of the Special Issue “Plant Extracts: Biological and Pharmacological Activity”, we have launched a second edition. The use of plant extracts in therapy dates back many years. Plant extracts have been commonly used over the years to treat and prevent chronic and acute diseases and promote health. Although many plant extracts have been studied, many others have not. Therefore, a Special Issue on the pharmacology of plant extracts is timely. This Special Issue aims to provide a comprehensive overview of the latest discoveries in plant extract products with an emphasis on pharmacological activity. We cordially invite authors to contribute original research articles, as well as reviews, that help to unravel the biological activities of naturally occurring products and create opportunities for their future use.

Guest Editors

Prof. Dr. Raffaele Capasso

Department of Agricultural Sciences, University of Naples Federico II, 80055 Portici, Italy

Dr. Lorenzo Di Cesare Mannelli

Department of Neuroscience, Psychology, Drug Research and Child Health (NEUROFARBA), Pharmacology and Toxicology Section, University of Florence, 50139 Florence, Italy

Deadline for manuscript submissions

closed (30 October 2023)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
