

Special Issue

Natural Products: Phytochemical Analysis & Pharmacological Evaluation

Message from the Guest Editors

The phytochemical analysis of natural products has been an important tool not only from a chemical point of view but also as a guide for the validation of their pharmacological activity. This Special Issue "Natural Products: Phytochemical Analysis and Pharmacological Evaluation" will present a collection of papers related to the phytochemical analysis of natural products from live organisms (plants, microorganisms, marine organisms, insects, etc.) in addition to their pharmacological evaluation. At present, the natural products are receiving increasing interest from many fields of knowledge; as such, your expertise on this topic could contribute to enhancing the interest in this important thematic issue. We cordially invite researchers working in this field to contribute original research articles, short communications, and critical review articles. Short papers on single compounds are also welcome.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
