

Special Issue

Organic Magnetic Materials

Message from the Guest Editors

The science of molecule based materials is an exciting subject in light of its fundamental scientific interest and potential applications. Collaborative projects between chemists, physicists and engineers have demonstrated that individual molecules or arrangements of molecules can conduct electrical currents and may retain 'bits' of information. Considerable efforts are being invested in developing strategies for the design and preparation of new materials involving organic molecules, and these efforts will be the focus of this special issue.

Dr. J.M. Rawson

Guest Editors

Dr. Antonio Alberola Catalan

Dpto. de Química Física y Analítica, Universitat Jaume I, Avda. Sos Baynat s/n, 12071 Castellón, Spain

Dr. Jeremy M. Rawson

Canada Research Chair in Molecular Materials, Dept of Chemistry and Biochemistry, The University of Windsor, 401 Sunset Avenue, Windsor, ON N9B 3P4, Canada

Deadline for manuscript submissions

closed (31 January 2010)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
