

## Special Issue

# Organic Memory Devices

### Message from the Guest Editor

Memory devices with organic or organic/nano hybrid materials have many unique advantages, such as low fabrication cost and high mechanical flexibility. They are regarded as next-generation memory devices. Great progress has been made in the development and understanding of organic memory devices. This Special Issue aims to provide a forum for the dissemination of the latest information on the materials, device fabrication, and mechanism of organic memory devices.

---

### Guest Editor

Prof. Dr. Jianyong Ouyang

Department of Materials Science & Engineering, National University of Singapore, 7 Engineering Drive 1, Singapore, Singapore

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
