# **Special Issue**

# **Peptide Chemistry**

## Message from the Guest Editor

Peptides are versatile biological molecules with a wide range of potential applications. Recent developments in peptide synthesis have enabled the preparation of both naturally occurring and novel peptidic structures of great complexity. This has led to the expanded use of peptides and peptidomimetics in drug development as well as growing interest in the development of peptidebased materials to underpin cutting edge technologies. Research articles covering all areas of peptide chemistry from peptide synthesis and chemical ligation; isolation and characterization of new peptidic natural products through to biological and medicinal applications: the study of peptide self-assembly and the development of novel peptide-based materials are welcomed for inclusion in this special issue for Molecules.

## **About the Journal**

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

#### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

#### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

### **Journal Rank:**

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
