Exclusive Papers from Editorial Board Members of the Photochemistry Section of *Molecules*

Message from the Guest Editors

This Special Issue of *Molecules* will focus on recent advances in photochemistry. While high-quality papers from all authors will be considered, we will primarily highlight recent research by the laboratories of Editorial Board Members (EBMs) from the Photochemistry Chemistry Section, providing an attractive open access publishing platform for photochemistry research data.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany
