# **Special Issue**

# Porphyrins and Phthalocyanines: Synthesis, Properties and Applications 2021

## Message from the Guest Editors

Natural and synthetic porphyrin derivatives. phthalocyanines, and other porphyrin-type compounds (corroles, expanded porphyrins, pyrrole-modified porphyrins, calixpyrroles, etc.) are extremely interesting compounds, both in terms of their chemistry and applications. New methods for their synthesis or structural modification are continuously being discovered, and an increasing number of molecules of these types are finding application in medicine (e.g., PDT, theranostic, imaging), solar cells, sensors, molecular recognition, catalysis, etc. The aim of this Special Issue is to provide a broad survey of the most recent developments related with the chemistry, properties, and applications of these compounds. Articles reporting recent original discoveries or reviews are welcome, Prof. Dr. João Paulo C. Tomé

## **About the Journal**

## Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

#### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

#### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

## **Journal Rank:**

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
