

Special Issue

Natural Sterols

Message from the Guest Editor

Sterols are among the most studied groups of natural products with interest commencing in the 19th century and continuing through to the present. Sterols occur in all major groups of organisms, from fungi to humans, as secondary metabolites. We now plan to edit this Special Issue on "Natural Sterols". Please submit your recent results of the following areas: Isolation, analytical method, structure determination, synthesis, biosynthesis, enzymatic process, biotransformation, and biological activity. We aim to provide a platform to present the valuable results of your research in these areas.

Guest Editor

Prof. Dr. Yasunori Yaoita

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
