Chalcogen-Nitrogen Chemistry

Message from the Guest Editor

Sulfur-nitrogen heterocycles (and Se-N/Te-N systems) have been known for many years but continue to excite attention as a consequence of the exciting new systems which are being prepared sometimes by rather unpredictable routes. Apart from fundamental synthetic and mechanistic chemistry new S-N, organo S-N (and their heavier selenium and tellurium congeners) have great potential in new electronic and magnetic materials. The area encompasses synthesis, heterocycles, ionic materials, conductors, superconductors, new magnetic materials and utilises a wide range of computational and spectroscopic methods. Prof. Dr. Derek Woollins

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
