# Chemical Synthesis of Natural Products

### Message from the Guest Editor

It is my great honor to edit a Special Issue, named as “Chemical Synthesis of Natural Products”, for *Molecules*. Considering your great achievements in this important field, I sincerely invite you to contribute a research paper or review from your recent advances in this dynamic area. A completed synthesis or synthetic studies toward a challenging target is suitable for this Special Issue. The development of related synthetic methods and strategies is also welcome. We look forward to receiving your manuscripts.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
