# **Special Issue**

# Women's Special Issue Series: Analytical Chemistry

## Message from the Guest Editors

We are delighted to present this special collection of articles highlighting the achievements of women scientists in analytical chemistry from all around the world. We cordially invite you to submit your work performed across all areas of analytical science and present your latest discoveries in classical and advanced analytical fields. This issue is aimed to spot contributions of female researchers in the development of detection and quantification methods to overcome obstacles in biomedical, agricultural and environmental sciences, food analysis, forensic chemistry, archaeometry and cultural heritage. These are only some of the topics of interest, and you are welcome to add new ones and contribute to a high-impact Special Issue. Articles where the lead authors are women, or that are completely authored by women, are encouraged. Communications, original research papers and review articles are welcome. Biographies or articles celebrating outstanding researchers who are women are also welcome. We welcome submissions from all authors, irrespective of gender.

## **About the Journal**

## Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

## **Journal Rank:**

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
