Women in Organic Chemistry

Message from the Guest Editor

International Women's Day will be celebrated on 8 March 2017. To mark this important milestone, our journal, *Molecules*, will launch a Special Issue on "Women in Organic Chemistry" to be published in *Molecules* (ISSN 1420-3049, <http://www.mdpi.com/journal/molecules>) in 2017. This Special Issue will include high quality papers and review articles in all areas of chemistry. We encourage all research groups (led by men or women) to contribute original research papers or an up-to-date, comprehensive review, highlighting recent developments in any area of chemistry. About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
