

Special Issue

Women in Materials Chemistry

Message from the Guest Editors

It is our pleasure to announce a new Special Issue on “Women in Materials Chemistry”, highlighting the achievements of women scientists in material chemistry from all around the world. We cordially invite you to submit your work, performed across all areas of materials science and present your latest research in classical and advanced fields, such as organic and inorganic materials, nanomaterials, biomaterials, composite and hybrid systems, green and sustainable synthesis of materials, as well as sensor-advancement, including nanosensors, microchips, and lab-on chip. This Special Issue will include communications, high-quality papers, and review articles in Materials Chemistry. Articles celebrating outstanding researchers who are women are also welcome. Papers where the lead authors are women, or that are completely authored by women, are encouraged. However, submissions from all authors, irrespective of gender, are welcome.

Guest Editors

Dr. Maria Manuela Silva

Prof. Dr. Luísa Margarida Martins

Prof. Dr. Antonella Curulli

Dr. Carmen Clotilde Mayorga-Martinez

Prof. Dr. Isabel Correia Neves

Dr. Laura Peponi

Deadline for manuscript submissions

closed (30 November 2022)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
