

## Special Issue

# Women in Nanochemistry

### Message from the Guest Editors

To celebrate and highlight the achievements of women in the field of Nanochemistry, this Special Issue, entitled *Women in Nanochemistry*, will present work in nanochemistry conducted by female scientists. We also hope that this Special Issue will further encourage and promote the scientific contributions of female researchers in this field. We cordially invite researchers to submit their work on topics across all areas of Nanochemistry. Review articles, original research papers, and communications are all welcome. Articles where women are the lead or senior authors are encouraged. We welcome submissions from all authors, irrespective of gender.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
