Methods and Protocols in Recent Artificial Intelligence

Guest Editors:

Prof. Dr. Yudong Zhang
Informatics Building School of Informatics, University of Leicester, Leicester LE1 7RH, UK

Prof. Dr. Juan Manuel Gorriz
Department of Signal Theory, Telematics and Communications, University of Granada, 18071 Granada, Spain

Prof. Dr. Yuankai Huo
Department of Electrical Engineering and Computer Science, Vanderbilt University, Nashville, TN, USA

Deadline for manuscript submissions:
closed (31 December 2021)

Message from the Guest Editors

Artificial Intelligence (AI) in general is one of the most exciting and rapidly growing research fields today. AI has been successfully applied to solve practical problems in different academic and industrial domains, comprising healthcare, psychology, economics, medicine, biology, manufacturing, sociology, transportation, etc. This Special Issue aims to provide a forum covering the latest progresses in new AI models, methods, technologies, structures, protocols, etc.

Keywords:

- deep learning
- artificial intelligence
- machine learning
- data mining
- methods and protocols

Special Issue

Editor-in-Chief

Prof. Dr. Fernando Albericio
1. School of Chemistry and Physics, University of KwaZulu-Natal, Durban, South Africa
2. Department of Organic Chemistry, University of Barcelona, Barcelona, Spain

Message from the Editor-in-Chief

Methods and Protocols (ISSN 2409-9279) is an open access journal devoted to the publication of new procedural approaches and cutting-edge methodological developments. The ultimate objective of this new forum of scientific communication is to provide researchers with an indispensable tool, enabling better use of the latest scientific technologies. With a broad and totally interdisciplinary focus, *Methods and Protocols* was established with the objective of facilitating cross-fertilization and cross-talk in the scientific arena. Methods and protocols in Life Sciences, Chemistry, Biomedical Sciences, Engineering, and in their intersections such as Biotechnology and Nanotechnology will constitute the core of the journal. However, we anticipate that other fundamental disciplines such as Physics or Geology will be rapidly incorporated.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.
Journal Rank: CiteScore - Q2 (Biochemistry, Genetics and Molecular Biology (miscellaneous))
