

Reviews on Molecular and Cellular Biology

Guest Editor:

Dr. Lucia Monaco

Department of Physiology and
Pharmacology, Sapienza
University, 00185 Rome, Italy

Deadline for manuscript
submissions:

closed (31 December 2023)

Message from the Guest Editor

Under the section "Molecular and Cellular Biology", this Special Issue aims to publish high-quality review articles within the field of Molecular and Cellular Biology. We kindly encourage all research groups covering relevant areas within the section's scope to contribute up-to-date, full-length comprehensive reviews, highlighting the latest developments in their research field, or to invite relevant experts and colleagues to do so.

Distinguished researchers from all over the world will be invited to contribute to this Special Issue. Potential contributors/invited authors are kindly requested to submit a tentative title and a short abstract to our Editorial Office (mps@mdpi.com) for pre-evaluation. Please note that selected full papers will still be subjected to a thorough and rigorous peer review. All papers will be published on an ongoing basis. The papers will be published with full open access after peer review.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Fernando Albericio

1. School of Chemistry and Physics, University of KwaZulu-Natal, Durban, South Africa
2. Department of Organic Chemistry, University of Barcelona, Barcelona, Spain

Message from the Editor-in-Chief

Methods and Protocols (ISSN 2409-9279) is an open access journal devoted to the publication of new procedural approaches and cutting-edge methodological developments. The ultimate objective of this new forum of scientific communication is to provide researchers with an indispensable tool, enabling better use of the latest scientific technologies. With a broad and totally interdisciplinary focus, *Methods and Protocols* was established with the objective of facilitating cross-fertilization and cross-talk in the scientific arena. Methods and protocols in Life Sciences, Chemistry, Biomedical Sciences, Engineering, and in their intersections such as Biotechnology and Nanotechnology will constitute the core of the journal. However, we anticipate that other fundamental disciplines such as Physics or Geology will be rapidly incorporated.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPplus / SciFinder, and other databases.

Journal Rank: CiteScore - Q2 (*Biochemistry, Genetics and Molecular Biology (miscellaneous)*)
