

Special Issue

Feature Papers in *Methods and Protocols* 2026

Message from the Guest Editors

We are pleased to announce this Special Issue of *Methods and Protocols*, entitled “Feature Papers in *Methods and Protocols* 2026”. In this Special Issue, we will collate articles from top researchers describing new approaches or new cutting-edge developments to tackle questions in the fields of life sciences, chemistry, and biomedical sciences, including analytical chemistry and advanced measurement science. In particular, we encourage submissions focused on the emerging fields of “Omics and High Throughput”, “Public Health Research”, “Synthetic and Systems Biology”, and “Tissue Engineering and Organoids”, as well as innovative developments in sample preparation, elemental and molecular analysis, and spectroscopic and spectrometric techniques. Our aim is to encourage scientists to publish new protocols based on established techniques, as well as significant improvements and developments of cutting-edge methods, with particular interest in methodological optimization, control of contamination and matrix effects, and validation of analytical performance. We look forward to receiving your excellent work.

Guest Editors

Prof. Dr. Fernando Albericio

Dr. Sophie Alvarez

Dr. Maria Luisa Astolfi

Deadline for manuscript submissions

31 December 2026

About the Journal

Message from the Editor-in-Chief

Methods and Protocols (ISSN 2409-9279) is an open access journal devoted to the publication of new procedural approaches and cutting-edge methodological developments. The ultimate objective of this new forum of scientific communication is to provide researchers with an indispensable tool, enabling better use of the latest scientific technologies. With a broad and totally interdisciplinary focus, *Methods and Protocols* was established with the objective of facilitating cross-fertilization and cross-talk in the scientific arena. Methods and protocols in Life Sciences, Chemistry, Biomedical Sciences, Engineering, and in their intersections such as Biotechnology and Nanotechnology will constitute the core of the journal. However, we anticipate that other fundamental disciplines such as Physics or Geology will be rapidly incorporated.

Editor-in-Chief

Prof. Dr. Fernando Albericio

1. School of Chemistry and Physics, University of KwaZulu-Natal, Durban, South Africa
2. Department of Organic Chemistry, University of Barcelona, Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Biochemistry, Genetics and Molecular Biology (miscellaneous))
