Feature Papers

Message from the Guest Editor

As Editor-in-Chief of *Methods and Protocols*, I am glad to announce the Special Issue "Feature Papers". This Special Issue will be a collection of articles from top researchers describing new approaches or new cutting-edge developments in the fields of Life Sciences, Chemistry, and Biomedical Sciences, as well as in other relevant scientific fields. We welcome the submission of manuscripts from Editorial Board Members and from outstanding scholars invited by the Editorial Board and the Editorial Office. You are welcome to send short proposals for submissions of Feature Papers to our Editorial Office (mps@mdpi.com) for evaluation.

About the Journal

Message from the Editor-in-Chief

Methods and Protocols (ISSN 2409-9279) is an open access journal devoted to the publication of new procedural approaches and cutting-edge methodological developments. The ultimate objective of this new forum of scientific communication is to provide researchers with an indispensable tool, enabling better use of the latest scientific technologies. With a broad and totally interdisciplinary focus, *Methods and Protocols* was established with the objective of facilitating cross-fertilization and cross-talk in the scientific arena. Methods and protocols in Life Sciences, Chemistry, Biomedical Sciences, Engineering, and in their intersections such as Biotechnology and Nanotechnology will constitute the core of the journal. However, we anticipate that other fundamental disciplines such as Physics or Geology will be rapidly incorporated.
